

UPVC Windows & Doors

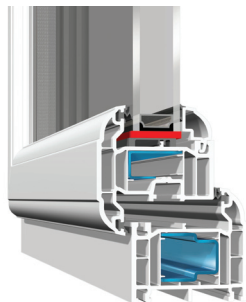

Casement Windows KÖMMERLING®

Windows are made using the energy efficient Kommerling O70 & C70 5 chamber Gold Systems. Both profiles offer a 70mm frame depth, extruded using a colourfast lead-free UPVC Greenline compound. The ovolo design of the O70 has a curved frame and The C70 gives a modern look with its clean chamfered design

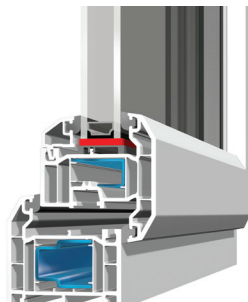

Features:

- 5 Chamber energy efficient profiles.
- Pilkington Optiwhite outer glass for increased solar gain.
- Planibel A inner glass with “fasT” technology.
- Warm edge spacer bars for heat retention.
- Single leg highly security internal beading.
- Steel reinforced where needed for structural strength.
- High security locking system.

Ovolo O70 System.

Chamfered C70 System.

UPVC Doors KÖMMERLING®

These high security doors are virtually maintenance free as they are made using colourfast UPVC. Available in a range of colours and styles and a choice of handle colour these high performance doors combine looks with security and longevity.
